All praise is due to Allah, our Master, the Master of the Believers, the conqueror of our enemy and his enemy, and the sender of his beloved with the clear truth and the supporter of his call until the Day of Judgment. Now then:

We write these words to you, O Western peoples in general, and the American people in particular.

O heedless American people, you and the entire world have seen the way your politicians - whom you elected - welcomed the filthy criminal Netanyahu in your diplomatic fortresses. Frankly, this welcome, which consecrates the criminal alliance between Jews and Christians to wage war against Islam and its people, did not surprise us. The sons of our nation were certain several decades ago that Israel was nothing but America's spoiled child.

O American people, the warm applause you saw a few days ago answers a large number of questions that are on your minds. This is the answer to why the bombings of Aden, Khobar, and Al-Ulya, the bombing of the first Trade Center, Nairobi, Dar es Salaam, Cole, September 11, the bombings of Casablanca, Falkland, and Boston, the Florida and Lamu Bay operations, and continuing with an endless series of operations, all the way to the simplest individual stabbing operation that occurred on your lands. Yes, those scenes that you saw are the answer to everything. Your government that you elected is fighting us, occupying our land, and supporting the Jews with your taxes to kill us. We do not want to go on too long in proving the evidence.

But we want to agree with you on 5 facts that we should not disagree on. The first: Your government and your country, America, began with a stage of weakness, and that it is weaker today than it was ten years ago. The presentation of the policy of withdrawal in the dialogues of your politicians and the rebellion of your allies against you reflects this weakness.

Second: What you call Islamic terrorism is today at its strongest, and this is according to the statements of your politicians, according to what your leaders said, in Africa alone the power of terrorism has increased tenfold.

Third: The Zionist massacres against our Palestinian people today are something we have not seen in 8 decades, and this is the most severe despite the Jews' history full of crimes.

Fourth: The operations that took place against you were due to your governments' support for the Jews over the decades, or at least it is a pretext that the Mujahideen (terrorists as you call them) use to incite Muslims against you.

Fifth: Your government's support for the Jews on all levels in this war is much greater than the previous one.

If we take these facts together and think about them a little, we will see that your politicians are leading you to great calamities for which you will pay with your blood, money, and security, as the previous operations against you were fueled by the massacres of the Jews against our nation, and today this fuel has become more intense because the massacres are unprecedented and your politicians, with their unlimited support for the Jews, have given a pretext to incite Muslims against you, and the position of the jihadist groups today is much stronger than it was before, and your state, even if it is still strong, is weaker than before, and its support for the Jews is stronger than ever before.

So you must take practical steps to deter your government, we see that the majority of you still support the decisions to support the Jews, and if it were otherwise, your candidates would not have competed in their election campaigns about who is the most supportive of Israel. Our rights do not fall in progress and the fire of revenge that this war is fueling today will burn you for many years. Keep in mind that the deterrent power of your government has weakened due to its exhaustion in our war, and nations no longer take you into account after Afghanistan and the Houthi militia's audacity towards you is the best evidence, so what can your government do when you wake up to a day like September 11?

Does it have the ability to send armies like before?

And if you do, then there is no doubt that these armies will be your sons and loved ones, and you will lose more blood, and of course Biden, Trump, or others will not send their sons to those calamities, until years pass and you lose tens of thousands of your sons, then the war stops and one of your government presidents comes out to tell you that there is no point in staying in such-and-such country and continuing such-and-such war, as Biden stated about Afghanistan, which has only suffered thousands of dead and wounded, and the Taliban's control over the entire country, knowing that it only controlled three-quarters of it when you entered, as according to the statements of the United Nations, when the invasion took place, Al-Qaeda had 3 camps in Afghanistan, and now it has dozens.

This is enough for us and we hope that you will ponder what has been mentioned and you have the freedom to decide your future and the future of your children, and be certain that the previous operations will have what will complete them in the future in a series that will not end except with a solution either from us or from you as Sheikh Imam Osama bin Laden - may God have mercy on him - told you.

And peace be upon those who follow the guidance
